

Art. No. 303046 tempusFLAT KLETT

Ready-to-lay Velcro strip to accommodate Velcro tube, for bonding to insulation laid on site, old screeds, ceramic floor coverings, wooden floors or flat and smooth concrete surfaces.

Thin-layer Velcro system for panel heating as a special construction with thin-layer screeds or for the construction of panel heating / panel cooling according to DIN 18560 and DIN EN 1264. The system element consists of a synthetic fibre top layer of only 2 mm thickness with a strong Velcro effect when using herotec Velcro tubes. The adhesive on the reverse side allows fixation on flat surfaces without any further aids. (Substrates according to DIN 18202 with increased requirements).

Material	synthetic fibre (Polyester)
Colour	grey with black grid
Roll dimensions	1050 x 20000 x 2 mm
Nutzmaß	1000 x 20000 mm
Tolerance	width: ± 2.0 mm, length $\pm 0.1\%$, thickness: $\pm 10\%$
Surface weight	approx. 300 g/m ²
Melting point (raw material)	> 110 °C
Bonding	self-adhesive with release film
Edge formation	dull
Laying grid	50 mm and multiples
Pipe diameter	herotec Klett pipe
