Art. No. 602050-602058 tempusVOLT PRO screed heating mat

The tempusVOLT PRO 230 V thin-bed screed heating mat is intended for use in new build projects and the restoration and renovation of old buildings. It is laid directly on the building's existing floor which it uses as a thermal store. VDE-tested and CE-compliant.

The thin-bed screed heating mat can be installed with little effort and is ready for connection. The heating conductors are fixed to a self-adhesive woven textile and have an extremely robust outer sheathing.

Mains voltage	230 V
Power output	175 W/m ²
Cold connection cable	4.00 m
Minimum installation temperature	+5 °C
Bending radius	min. 40 mm
Resistance tolerances	- 5 % / + 10 %
Approval	VDE
Supply width	900 mm
Calculation width	880 mm
