Art. No. 602020-602025 tempusVOLT OUT asphalt

Art. No. 602070-602075 tempusVOLT OUT screed sand

The tempusVOLT OUT 400 V exterior heating mat is used for the reliable removal and thawing of snow and ice on paths, ramps, driveways and other areas. They are available in the requested variants for screed/sand and bituminous asphalt. They provide increased safety on these vehicular and pedestrian traffic areas. VDE-tested and CE-compliant.

The exterior thin-bed screed heating mat can be installed with little effort and is ready for connection. The heating conductors are fixed to a woven textile in order to ensure consistent spacing and have an extremely robust outer sheathing.

Mains voltage	400 V
Power output	300 W/m <sup>2</sup>
Cold connection cable	12.00 m
Minimum installation temperature	+5 °C
Bending radius	min. 40 mm
Resistance tolerances	- 5 % / + 10 %
Approval	VDE
Supply width	800/900 mm
Calculation width	880 mm
