

Art. No. 602050-602058 *tempusVOLT PRO* screed heating mat

The *tempusVOLT PRO* 230 V screed heating mat is for use in new buildings, for renovating old buildings and for renovation work. It is laid directly on the floor of the property and uses this as a heat accumulator. VDE-tested and CE-compliant.

The ready-to-connect screed heating mat can be laid with little effort. The heating conductors are fixed to a self-adhesive fabric and have an extremely robust outer sheath.

Mains voltage	230 V
Power output	175 W/m ²
Cold connection cable	4,00 m
Minimum installation temperature	+5 °C
Bending radius	min. 40 mm
Resistance tolerances	- 5 % / + 10 %
Approval	VDE
Delivery width	0,90 m
Calculation width	0,88 m
