

Art. No. 602060-602065 *tempusVOLT* OUT mastic asphalt

Art. No. 602070-602075 *tempusVOLT* OUT screed sand

The *tempusVOLT* OUT 400 V outdoor heating mat is for the reliable removal and defrosting of snow and ice on paths, ramps, driveways and other surfaces. In the desired variants for screed/sand and mastic asphalt. They serve for more safety on these traffic surfaces. VDE-tested and CE-compliant.

The ready-to-connect outdoor heating mat can be laid with little effort. The heating conductors are fixed to a fabric to ensure a constant distance and have an extremely robust outer sheath.

Mains voltage	400 V
Power output	300 W/m ²
Cold connection cable	12,00 m
Minimum installation temperature	+5 °C
Bending radius	min. 40 mm
Resistance tolerances	- 5 % / + 10 %
Approval	VDE
Delivery width	0,80/0,90 m
Calculation width	0,88 m
